FALL 1950—SPRING 1951

This supersedes all prior prices quoted at any time.

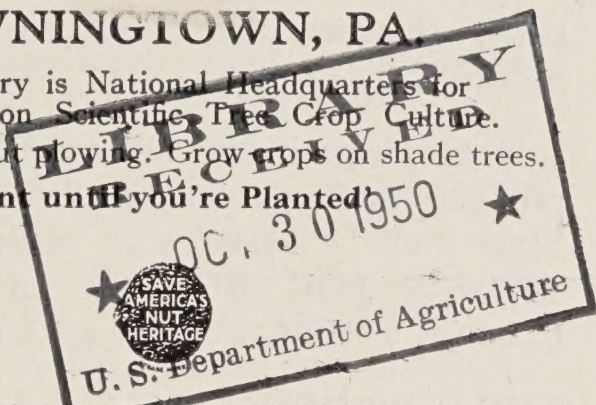

Hershey

NUT TREE NURSERIES

JOHN W. HERSHEY, Owner

DOWNINGTOWN, PA.

This Nursery is National Headquarters for
Information on Scientific Tree Crop Culture.
Get Rich without plowing. Grow crops on shade trees.
"Plant until you're Planted"

WE DON'T GROW TREES TO SELL
WE SELL TREES TO GROW

MAXINE PEARS IN PRODUCTION

Standing in Romig's orchard—these 20 trees—no blight, started to bear quite young. Several years ago Romig's reported 4 to 5 bushel per tree. This year 8 bushel. Note sturdy-spreading and upright frame. Needs no props. Fruit similar to Bartlett in ripening and flavor. Sells for \$5.00 a bushel. We have a limited stock—order quickly three, 3 yr. trees 6-8 ft. only \$6.75 f.o.b. here. Fruit in a nut catalog?! It's so good we can't resist.

$$\frac{\text{Idle People}}{\text{Idle Acres}} + \frac{\text{Idle Money}}{\text{Tree Crops}} = \text{Prosperity}$$

See our booklet for description—25¢

NOTE—LOCATION—4 miles Northwest of Downingtown at Guthrieville on U.S. Route 322 (the Horseshoe Pike.) Turn north at stone school house $\frac{1}{4}$ mile past Guthrieville, second place on left. Coming from the West turn left second road past the old Manor Church. NO SUNDAY BUSINESS.

Can a farmer continue if he only conserved his cows, chickens and seed? Conservation is negative.

Nature is positive—a creator and re-creator—producer and reproducer. “Plant a Tree or a State Full.” Make your slogan “BETTER THINGS FOR BETTER LIVING THRU LIVING THINGS.” Let’s go America.

THE HERSHEY WAY. This folks is the starting at the beginning of—growing our trees in proper soil, organically managed. Then selection of seed for understock and scions to graft with.

Take advantage of quick production by setting our large healthy trees organically grown. It’ll help you get rich without plowing. Here, on America’s #1 Tree Crop farm, we find 8-10 ft. trees 5 yrs. ahead of small trees in 3 yrs.

Organically grown—There’s no stuttering and no alternative. (For the Best You Must Plant The Best). Organically grown trees proved their worth as never before in summer of ’49 draught. Few died for customers.

Unlike bargain clean-up sales, we’re staying in business with service to you. That’s money in the bank for you as you develop your planting.

All these things—plus our quarter century of experience in progeny testing makes just one place to buy better nut trees. That’s here.

This—plus our quarter century of experience in progeny testing makes just one place to buy better nut trees. That’s here.

NEXT STEP—We cut the tops—the branches—in short “the brush” off them to balance with the roots sheared off in digging, to give them a chance to start for you. Then dip in a costly wax to keep them from drying out until started.

PLEASE NOTE: That crook in the stem of the tree is the "Hall Mark" of quality. If it isn't there, your tree isn't grafted.

BOOKLET: "How To Get Rich Without Plowing!" Don't miss sending for it—the latest in description and cultural data, 25¢.

TERMS

Prices subject to change without notice.

We like cash with order except where special terms are arranged or from old customers with good credit.

All prices f.o.b. Nursery. Orders up to \$5.00 of small size stock can be mailed—add 13% for all orders to be prepaid. We discourage Parcel Post shipment.

Express, delivers in half the time—few losses, no squawks on claims. Freight is best for heavy shipments.

Our responsibility for transportation ceases when shipment has been delivered to the hands of the carrier (or transportation agency).

No order where an affidavit must accompany invoice will be considered for less than \$10.00.

Six of one variety sold at the dozen rate.
All trees cut back and waxed dipped.

Grafted Black Walnut

Bears 3 to 5 yrs.

Juglans Nigra

The Commercial Tree of the North

The thin-shelled grafted varieties. The commercial nut tree and a good partner for the Chestnut.

Thomas, the leader and all around nut.

Elmer Meyers, the more I see of this nut the better I like it. For those who like the Stabler, this will take its place—is as thin-shelled, better bearer, better kernel. No Elmer Meyers under 3-4 ft.

Ohio, most ornamental foliage. Best bearer with poor care.

Cornell, (my introduction) a new northern selection of Thomas seedling. Cornell says Cornell matures its nuts at Ithaca in cool summers when native trees fail. Cracks as well as the Thomas. Try them especially in the north. On northern understock.

Black Walnut Seedlings. A Wm. Penn Tree Selection

Bears 5 to 7 years

(My Introduction—My Selection)

J. Nigra

For large commercial plantings where machines will crack them, these are the trees to plant if you can't afford a grafted tree.

Remember these are not in the "just seedlings" class. Fast growers—nut nearly as good as Thomas.

	Each	Dozen

Cut Leaf. *Juglans Nigra Laciniata*. Keystone Variety.

This rare and odd fern leafed Black Walnut is indeed something. The nut shows promise of being a real oddity also. In sizes 4—8 ft. Prices same as English listed above. In each price only.

✓ Paw Paws

Asimina Triloba

Am pleased to offer seedling at the following prices. Don't have many roots but will grow with care.

	Each	Dozen
2—3 feet.....	\$.50	\$ 5.00
3—4 feet.....	1.00	10.00

Filberts

Corylus Avelina

(plant two for pollination)

Bears 3 to 5 years—18 feet height

✓ Barcellona, Pollenator, Davianna, DuChilly, do extra well in moist soils but grows anywhere.

	Each	Dozen
3—4 feet.....	\$1.75	\$17.50
4—5 feet.....	2.00	20.00

Set 20 feet apart in a block 6-8 feet for informal hedge.

Hybrid Filberts C. Mildredii—Select American Hazels

Our observation of the hybrids has been, surer bearers for the far north. Hazels, better yet, but remember nuts are smaller.

PLEASE NOTE—do not ask for one of each species or hybrid. They do not pollenate each other. Let me make the combination. Just order, hybrids, or hazels or some of each.

We are now able to offer in a very limited way—

Hybrids, Bixby, several numbered varieties just as good.

American Hazels;

—Rush, a fine selection of Penna. hazels.

—Winkler, excellent from Iowa.

—Ky. a thin shelled small nut that has never failed to load yearly in my frost pocket in Downingtown where neither the hybrids or filberts bore.

	Each	Dozen
1—3 feet.....	\$2.50	
Rush Hazel seedlings—		
2—3 feet.....		1.00
Ky. Hazel seedlings—		
2—3 feet.....	.50	\$5.00

— Chestnuts (Chinese) *Castanea Mollissima*

Sweet, delicious, Blight resistant.

Will not thrive on damp or heavy soils.

Set 40 x 40 feet for orchard, 28 per acre.

Plant two for pollenation. Bears 3-5 years.

These are the finest, heavy calipered largest sized quality trees offered in America.

A sprinkling of nuts cover the block.

For years some effort has been made by individuals to select named varieties of this Chinese Chestnut (*castanea mollissima*). However, they come so nearly true from seed, we recommend the planting of seedlings for home and commercial use. A large field awaits the use of the Chestnut for marketing and hog feed. I've planted 300.

One man reported his 21, 13-year-old trees bearing 1,836 lbs. Want in on it?

	Each	Dozen	Hundred
1—2 feet.....	\$1.10	\$11.00	
2—3 feet.....	1.25	12.50	\$ 90.00

GRAFTED VARIETIES OF CHESTNUTS

And for those who want varieties we can fix you up in a limited way.

Timber type an upright grower.

Abundance

	Each
1 yr. 1—3 feet.....	\$4.50
2 yr. 3—5 feet.....	5.00
3 yr. 5—7 feet.....	6.00

The following three are the new U. S. Dept. of Agriculture introductions.

Kuling, Meiling, and Nanking.

1 yr. only, 3—5 feet.....	\$4.50
---------------------------	--------

— Rush Chinquapins

	Each
2—3 feet.....	\$2.00
3—4 feet.....	4.50

— Japanese Chestnuts—C. Crenata.

Good bearers. Large nuts

Poor flavor

	Each
3—4 feet.....	\$2.00
4—5 feet.....	2.50

PLANTING SUGGESTIONS—Walnut-Chestnuts

I suggest you start out with a planting of walnut 60 x 60 feet, this makes 12 per acre. Then set a chestnut between each walnut on the row making 12 chestnuts per acre. This gives you a nice balance in space and soil use for the walnut is tall and deep rooted and the chestnut is more shallow rooted with a lower head. Plus a 60 ft. middle for farming.

Grafted Shagbarks (eastern shellbark)

Hickoria Ovata

Romig, Grainger, Lorane, Glover

These are very scarce. Let me select variety to fit size you wish and variety for your territory.

6—18 inches.....	\$4.50
2— 3 ft.....	5.50
3—4 feet.....	6.50

Shagbark Hickory Hybrids

These beautiful trees with their narrow columned head, stiff shiny small leaflets—plus their rapid growing makes them tops for avenues, lawn specimens or clumps. It seems a shame to see rows of maples planted when hybrid shagbarks are better.

These hybrids bear in 5-6 years and lots of good sized thin shelled nuts. IF you want a quantity write for discount.

Fairbanks } These two old varieties need no introduction.
Stratford }

White Hybrid Hickory. A promising new variety from Iowa. Rapid grower, good bearer, large sweet nuts. Ornamental.

	Each	Dozen
1—2 feet.....	\$3.00	\$30.00

7—9 feet, heavy.....	5.50	55.00

Fairbanks Only

10—12 feet, heavy.....	6.50	65.00
------------------------	------	-------

Write for Hundred Rates.

Bitternut Hickory Seedlings

For forest and timber and for quick squirrel feed.

	Dozen
5—8 feet heavy.....	\$20.00

Hardy Northern Pecan—Bears 7 yrs.

H. Oliviformis

Marvelous for lawns, very ornamental, Bears in 5-7 years.

These two varieties selected over many years of observation as the best.

Greenriver, Busseron, plant two for pollination.

Price below. Sizes up to 5—6 feet.

Hicans

A pecan X shellbark, cross

All hicans are beautiful shiny foliage. All have excellent flavored nuts. The first three listed are great large nuts—slow to bear—the last two bear 5-6 years.

Let us select the variety that is best for your locality.

Girardi, Bixby, Dad's Miracle, Burton, Wright.

Wright-Burton up to 4—5 feet only. Plant two for pollination.

	Each
2—3 feet.....	\$3.50
3—4 feet.....	3.75
4—5 feet.....	4.00
5—6 feet.....	4.50
6—7 feet.....	5.00

SUGAR MAPLE

Acer Saccharum.

This remarkable crop tree, the source of the finest sugar and sirup in the world has been over-looked too long by forester and agricultural expert.

It is most beautiful, drought resistant and rapid growing. The only reason YOU haven't tapped your few trees is because it wasn't brought to your attention in our fast moving society.

Any size you wish just so you get started on your home sugar growing.

	Each	Dozen
3—4 feet.....	\$1.00	\$10.00
4—5 feet.....	\$1.50	\$15.00
5—6 feet.....	1.75	17.50

8—10 feet.....	3.00	30.00
10—12 feet.....	4.00	40.00

Honey Locust (Thornless) (*My Introduction*)

Gleditsia triacanthos inermis Sweet pods for cattle feed.

Bears 3-5 years

Famous for growth value.

The agricultural Experiment Station at Auburn, Alabama reports their 8 year trees bore, figured in oats value with 20 trees* per acre equal 125 bushels per acre, plus a crop of hay or pasture without cost of annual field preparation, planting and harvesting. Mature trees will grow as much as 300 bushels of Oats food value per acre.

See Complete Food Analysis in 25¢ booklet.

A site better, read Smith's amazing report on them in "Tree Crops". It's listed on back page.

Calhoun—These two old varieties need no introduction. **Millwood**—

Smith—More hardy for northern planting.

Schofer—Originating at Pennsburg, Pa. is 500 miles farther north than the home of other varieties. Hence it's possibilities in hardiness.

NOTE—Schofer and Smith up to 4—5 feet only. (No hundred rates)

	Each	Dozen	Hundred
2—3 feet.....	\$1.10	\$11.00

Wm. Penn Oaks—(*My Introduction*)

These are the "corn fields of the future." When man grows up to use what he has, he'll **Oak** a mountain ridge, a hill-side, a rocky knoll.

According to production figures of bearing oaks a low of 274 bus. of corn per acre in hog food value can be grown on mts. and steep slopes. You can start YOUR future tax reduction by planting NOW?

Many people insist on a black or red oak. THE WHITE is JUST as beautiful as either in the autumn with the addition of—the BEST oak timber and the BEST acorn for feeding poultry and hogs.

THE BURR stands out as a brunette in the landscape, dark, heavy large leaved, deep green foliage. Another attraction is their remarkably rapid growth AND corky bark on branches. Timber good, acorns large and sweet. TURKEY—odd, holly leaved, very ornamental. *Prices next page.*

Wax dipped special-grown for making fine roots.

Oak Transplanted

White—(*Quercus Alba.*) Burr—(*Q. Macrocarpa*)
Turkey—(*Q. Cerris*)

These have remarkable roots and transplant well. No
whips—heavy caliper.

No Burr under 10 feet.

	Each	Dozen

Persimmon *Diospyros Virginiana* all grafted

Excellent selections of the American species.

Josephine, ripens fruit after the middle of September.
Sweet, delicious, yellow.

Early Golden, comes in a few days later, slightly larger,
yellow.

Buhrman, large, late, solid flesh, color a dark maroon
with purple bloom. Don't plant north of southern Penna.

Kitch, ripe December 1st, small but delicious. This is
the prune of the persimmon world. Dries on tree. So
high in sugar content you can see the crystals when you
break the flesh. Hangs all winter, slowly dropping to the
middle of March. Greatest game food you ever saw.

Garrettson, Fruit small, one of the sweetest you ever
ate. The best for the extreme north. Hardy and ripens
well in the Finger Lake region.

Male tree—if your persimmons don't bear or if you are
planting out of the persimmon range a Pappa will make
it bear.

Bears 3-5 years.

Note sizes available in each variety.

	Each	Dozen	Hundred
2—3 feet.....	\$2.00	\$17.50	\$125.00

CHINESE PERSIMMONS

Sheng, Great Wall, Peiping.

And now folks I'm able to offer a limited number of these excellent, marvelous wonders of Oriental horticulture. You know those large ones you like to buy on the market. These are grafted high to prevent frost burst at ground.

Not recommended hardy north of Southern Penna., Jersey, L. I. and southern Ohio, west.

We will not ship your order until spring if you live in or north of Va. and Ky. unless you promise to winter protect them with corn fodder or burlap. But order now—may be gone later.

	Each
4—5 feet.....	\$3.50
5—6 feet.....	4.00
6—7 feet—2 year—heavy.....	5.00

Pears—Blight Resistant, Budded.

Here's a family selection.

MAXINE—Resembles Bartlett—excellent. I've never hooped up this variety too much because, altho knowing it is good, couldn't proove it. Today customers of our local orchard men and others prefer it to the bartlett.

We have a limited supply this year. Plant a bunch.

WORTON SICKLE—about three-fourths size of bartlett, flavor sickle.

DUCHESS—A delightfully fall pear.

COLLINS—sand pear, Salad pear, fruit hangs till January. Ornamental large fruit. Decorative.

	Each	Dozen
5—6 feet.....	\$2.00	\$20.00
6—7 feet.....	2.25	22.50
7—8 feet.....	2.50	25.00

Mulberry Morus—Grafted.

Downing black. One of the old Standbys.

Hicks—This is the Queen of Mulberries for flavor. Bears 3 months. Hardy as far north as Southern Penna. west.

Roecker, white. About the size of, and as high flavored as Hicks, very hardy. That's a new feature in mulberry varieties. Up to 6—7 feet.

	Each	Dozen
4—5 ft.....	\$1.50	\$15.00

TREE CROPS

**An amazing book just out
400 pages, 145 photos, several charts**

A guide to "riches without plowing" by the mature mind of Dr. J. Russell Smith. In the welter of junk coming off the press to entertain the unhappy and "fearful" it's refreshing indeed to read the mature literature on how to re-clothe the earth—how to reclaim our eroding soil and human spirit—what to do to stop the rot of our democracy.

Do it while you "make money"—have fun—enjoy your self growing nuts and tree crops—growing new selections and recording the data—breeding new and better varieties. But the most interesting feature is—how you can make more money on your steep slopes; rocky knolls—hill or mountain farm with tree crops. Other than present commercial fruits.

It has one very distressing feature—distressing to "modern thinking". Dr. Smith with great clarity and mature judgment points out **you** must do it yourself, not depend on experiment stations or government subsidy. 408 pages cataloguing the success of nuts and tree crops in the old world with a start of it in America.

He charts our America's #1 Tree Crop Farm here at Downingtown as a guide to those who wish to follow.

He gives you 145 pictures to look at if you can't read. Just \$6.00 Postpaid cheaper than any college course offered—more valuable.
